About the COP Self-assessment

Using this online questionnaire you will have the opportunity to assess what commonly accepted best practice your COP describes under each of the GC Advanced criteria, in the following areas:

- Corporate Sustainability Governance & Leadership
- Implementing the Ten Principles into Strategies & Operations in the areas of:

Human Rights
Labour
Environment
Anti-Corruption

- UN goals and issues

In order for your COP to qualify for the GC Advanced level, you must select at least one best practice for each of the criteria. If you do, the COP will automatically qualify for the GC Advanced level and the results of the self-assessment will be made public on the Global Compact website, alongside your COP. If you cannot confirm, the COP will be accepted but it will not qualify for the GC Advanced level. However, the results of the self-assessment will be made public on the Global Compact website, alongside the COP, to improve the analysis of the COPs and underlying performance.

Note: Throughout the self-assessment, best practices marked with  indicate additional information is available for that item.

Implementing the Ten Principles into Strategies & Operations

For the following criterion, please check the best practices you have implemented and discussed in your COP.

+ About this section...

Criterion 1: The COP describes mainstreaming into corporate functions and business units

- Any relevant policies, procedures, and activities that the company plans to undertake to fulfill this criterion, including goals, timelines, metrics, and responsible staff 
- Place responsibility for execution of sustainability strategy in relevant corporate functions (procurement, government affairs, human resources, legal, etc) ensuring that no function is conflicting with company sustainability commitments and objectives
- Align strategies, goals and incentive structures of all business units and subsidiaries with corporate sustainability strategy
- Assign responsibility for corporate sustainability implementation to an individual or group within each business unit and subsidiary
- Design corporate sustainability strategy to leverage synergies between and among issue areas and to deal adequately with trade-offs
- Ensure that different corporate functions coordinate closely to maximize performance and avoid unintended negative impacts
- Other established or emerging best practices

Robust Environmental Management Policies & Procedures

For the following criterion, please check the best practices you have implemented and discussed in your COP.

Criterion 9: The COP describes robust commitments, strategies or policies in the area of environmental stewardship

- Any relevant policies, procedures, and activities that the company plans to undertake to fulfill this criterion, including goals, timelines, metrics, and responsible staff 
- Reference to relevant international conventions and other international instruments (e.g. Rio Declaration on Environment and Development) 
- Reflection on the relevance of environmental stewardship for the company 
- Written company policy on environmental stewardship
- Inclusion of minimum environmental standards in contracts with suppliers and other relevant business partners
- Specific commitments and goals for specified years
- Other established or emerging best practices 

Criterion 10: The COP describes effective management systems to integrate the environmental principles

- Any relevant policies, procedures, and activities that the company plans to undertake to fulfill this criterion, including goals, timelines, metrics, and responsible staff
