**Session:**  
Hot Seat : Breaking Through

Jean Bennington Sweeney is Chief Sustainability Officer (CSO) and Vice President, Corporate Social Responsibility for 3M Company. Ms. Sweeney has held a diverse array of positions at 3M ranging from product development to manufacturing. Her leadership includes assignments as Manufacturing Director 3M Australia and New Zealand, Managing Director of 3M Taiwan and Vice President, Environment, Health, Safety and Sustainability.

In her current role as CSO, Ms. Sweeney is responsible for 3M Environment, Health, Safety and Sustainability programs globally. This includes technical and regulatory EHS expertise for over 200 facilities and the development and implementation of corporate Sustainability strategies in collaboration with 3M employees, suppliers, customers and stakeholders globally.

Ms. Sweeney is recognized as a female leader in engineering and is passionate about encouraging young women to pursue careers in STEM. In addition, Ms. Sweeney is a strong advocate for purpose-driven innovation and the business benefits of Sustainability.

Ms. Sweeney holds a degree in chemical engineering from Montana State University, an MBA from the University of St. Thomas, and an Honorary Doctorate in Science (Engineering) from Montana State University.
